## **DETAILED ACTION**

### ***Allowable Subject Matter***

Claims 1 – 5, 13, 15 – 17, 19 – 26 and 28 - 33 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art of record fails to teach alone or in combination a method of creating test item variants. Specifically, creating a test item model by identifying elements of the test item to generate variables, defining the variables. Further, wherein a particular element is identified based upon a selected portion of text, wherein a particular variable is generated using a particular element based on selection of an instruction that controls generating the particular variable, and wherein a data type of the particular variable is automatically defined based on a format of the selected portion of text, receiving a plurality of constraints for a test item variant; generating with a computer the test item variant of the test item by generating values for the variables using a simultaneous constraint solver executed by the computer, wherein the simultaneous constraint solver resolves the plurality of constraints pertaining to the variables;

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
